Sub: Permission to use Differential Scanning Calorimeter for nanoparticles.

Dear Sir,

My PhD research student, Mr. Mahesh Sherkar is working on the Design and development of novel drug delivery system of the antiviral agents for prophylaxis of HIV/AIDS and prevention of sexually transmitted diseases, by formulating nanoparticles, dispersed vaginal gel. We have prepared antiviral (Abacavir, Didanosine, Tenofovir) loaded nanoparticles of Chitosan (CS), Chitosan-Polyethylene oxide (CS-PEO), Chitosan-Polyethylene oxide-Polypropylene oxide (CS-PEO-PPO). We have to do differential scanning calorimetry for the above samples. These are total 17 samples. As per above cited subject, I request you for the permission to use DSC for these nanoparticles samples. Please let me know when it is convenient for you to give these samples, so that the student can come and give it.

This kind help from you will be acknowledged by the student in thesis, as well as in all presentations and publications related to the work.

Respected Sir,

Sinhgad College of Pharmacy is part of a 90-institution fleet under the banner of Sinhgad Technical Education Society and was established in the year 2000. This institution is very well known and popular in Maharashtra and India.

We have a highly qualified faculty with a rich experience in teaching and research, as well as in the industry. Ever since its inception, the college has maintained an academically oriented environment and stressed the importance of research activity. We have M. Pharmacy in the subjects of Pharmaceutics, Pharmacology, Quality Assurance Techniques and Pharmaceutical Chemistry. My research student Miss. Esha S. Attar is in need of freeze dry product of formulation.

So, I Requesting you to provide us freeze dried product of our two samples of nanostructured lipid carriers. The sample is coded and duly labelled as sample name. Please find the sample along with letter.

Sub: Permission to use freeze dryer for separation and drying of nanoparticles suspended in the water.

Dear Sir,

My PhD research student. Mr. Mahesh Sherkar is working on the Design and development of novel drug delivery system of the antiviral agents for prophylaxis of HIV/AIDS and prevention of sexually transmitted diseases, by formulating nanoparticles, dispersed vaginal gel. We have prepared antiviral (Abacavir, Didanosine, Tenofovir) loaded nanoparticles of Chitosan (CS), Chitosan-Polyethylene oxide (CS-PEO), Chitosan-Polyethylene oxide-Polypropylene oxide (CS-PEO-PPO). These are in slurry form. To separate and drying of these nanoparticles we have to lyophilize it. There are total 9 samples of 500 ml each. As per above cited subject, I request you for the permission to use freeze dryer for separation and drying of these nanoparticles samples. Please let me know when it is convenient for you to give these samples. so that the student can come and give it.

This kind help from you will be acknowledged by the student in thesis, as well as in all presentations and publications related to the work.
