The PG course in Pharmacy conducted at the college is partly by papers and partly by research. Every students of PG is to submit the research project (PG Dissertation), to carry out the research project he/she has to use the sophisticated instruments available at our central instrumentation facility. Without knowing the working of such instruments, students will be unable to work on such type of instruments, hence every year the freshers or admitted batch has to undergo the hands-on training required for research purpose.

At PG program students has to complete a course titled as Research Methodology (Mentioned in University Curriculum) hence students are trained by organizing workshops/seminars on research methodology every year.
